Crops Now Nearly Secured

The crop outlook a few weeks ago was rather gloomy, as much of the yield was still in the stack and under the snow. But since that time, and during the recent fine weather the enterprising farmers have turned out and shaken the snow off and either threshed or stacked their grain. Of course there is still much threshing to be done, which is rather slow on account of the snow and the heavy crop, but once the grain is stacked the chances of loss are practically over. A more optimistic feeling prevails as the farmers think they are coming out alright after all, and the yield in this part of the country is as great, or probably greater, than ever before.

Cushing Bros. to Build Factory

Mr. Byers, manager for Cushing Bros. in Red Deer, informs us it is the intention of his firm to erect a large factory in Red Deer next year, and already steps are being taken to secure information regarding cost, etc.

What this town needs is factories, and the information, while meagre, will be received with pleasure as showing the way things are going in Red Deer.

The W.C.T.U.

The regular meeting of the W.C.T.U. will be held at the home of Mrs. G. W. Smith, on December 1st, at 8.30. All members requested to be present. If there are any W.C.T.U. women in Red Deer, the association would be glad to have them meet with them. All ladies interested in the work, and who would like to join, are invited to be present. A very interesting report of the convention at Calgary will be given by Secretary Mrs. McVicar. The union is doing good work and every member added makes it that much stronger.

Rocky Mountain House

The Canadian Northern Railway Company are building freight sheds at the Mountain House. We presume Arthur Winsor, of the engineering staff of the C.N.R., gave a social gathering and hop at Olsen's restaurant last week. A very enjoyable evening was spent.

Mrs. O. Carlson has opened a school in Beryl Gray's house.

A. Miles, of the C.N.R., has succeeded Mr. Stephens as Chief Constable and Sid. Brown has been appointed Assistant Constable. A member of the Mounted Police takes up his duties at Rocky Mountain House next week.

Prairie Grange will have a school by next April.

A Dominion Lands Office has been opened here with Mr. Taylor as agent.

Ridgewood

Miss F. Hickley has gone to Red Deer for the winter. We presume there will now be fewer Sunday visitors at her brother's farm.

Some turkey seem to be greatly excited around here, especially those of the pure bred brooding kind.

Mr. and Mrs. J. W. Tilden are leaving shortly for the States. We regret the loss of such a good farmer and stockman and sociable neighbors, and hope that they may return at some future date.

John Martin has purchased from Smith Brothers, of Evans, the remainder of their bunch of horses, comprising about twenty-five head.

M. J. MacDonald has taken about three hundred head of railroad horses for the winter.

The Presbyterian church will be open for services on Sunday next. Mr. Foulard of Toronto, has arrived to take charge.

Arrangements are now under way to have a Christmas tree and concert in the Ridgewood school house at the close of the school term. It is hoped that all those interested will help to make it a great success.

Mr. and Mrs. S. I. Smith and Miss Braton, of Evans, were visiting at Angus Martin's this week.

Mr. Jerry Still, the threshing outfit is making good progress since the fine weather set in.

Banquet to Distinguished Guests

W. P. Bull, K.C., of Toronto, and party, were tendered an informal banquet by the Board of Trade Saturday evening, in the dining room of the Arlington Hotel. About thirty people were present, including the Executive of the Board of Trade and the Town Council, and heads of the manufacturing companies of the town, and bank managers.

For the citizens speeches were made by President Greene, Board of Trade, Mayor R. B. Welliver, E. Michener, M.P.P., and Commissioner Davison, welcoming the guests and pointing out the development that is ahead of Red Deer, and the opportunities the town offers for industries.

On behalf of the visitors replies were made by Messrs. Bull, Henry Lyne of Marlborough, England, F. W. Law, President B.C. Life Insurance Co., Thos. H. Brown, Vancouver, and Thos. Young, London, England, Business Manager of Cassell's Magazine.

Mr. Bull has interested British capital in Red Deer, and the purpose of the visit was to locate sites for two industries which it is proposed to establish at this place. Mr. Lyne will establish a farm for raising thoroughbred stock, and will import the best class of animals from the British Isles. He will go in mainly for beef breeds of cattle.

The Old Country visitors expressed themselves as wonderfully impressed with the immensity of this western country, and the wonderful optimism of the people here. Mr. Young said that everyone they met seemed simply bound to succeed beyond any possibility of doubt.

The party went to Edmonton yesterday with Superintendent Mahar.

Poplar Ridge

Miss Wilson spent the week end visiting Mrs. Faucher at Sylvan Lake.

Although only a few turned out to service Sunday afternoon, a new Board was elected. Rev. Barker is due next Sunday. We know what to look forward to; don't miss the treat.

The school house is filled to its utmost seating capacity. It is hoped it will continue so if more seats have to be bought.

Mr. Howard, of Pitoc, had the misfortune to lose a valuable horse Saturday night. Stopping at W. R. Atkins for the night, the horse got in the manger, and was found dead the next morning.

Grain stacking is nearing completion. Quite a novelty to draw grain on sleighs.

Ted. Edgington has sold his farm to Mr. Shandy, and has moved in town with his sister, Mrs. Reed. Poplar Ridge sustains a great loss in Mrs. Reed as a neighbor, friend and church worker.

H. Banton has gone to town for the winter.

The recent development in North Red Deer, and the growing inconvenience felt by its citizens in having to cross the river to do any shopping have induced Messrs. Gaetz and Snell to open a general grocery store in that lively burg. The store is in the Banheimer block, just north and west of the bridge, and will be under the general management of Mr. Snell.

LEINE AND NEINE NOT GUILTY

KELLY GETS SEVEN YEARS

Judge Stuart gave his decision in the Kelly case Wednesday morning at the Supreme Court Sittings. Kelly pleaded "not guilty," and Mr. Payne, who had been requested by the magistrate to undertake his defence, appeared on his behalf, while Mr. A. H. Russell was the Crown prosecutor. The town jurors were challenged, and the following jury was chosen: E. M. W. Farley, Foreman; Thos. Pitcairn, Stettler; Wm. Curry, Innisfail; D. A. Mc Donald, Alton; Robert Stuart, Innisfail; J. F. Fumerton, Lacombe. The witnesses were H. G. Munro, W. L. Grant, Chief Bell, Dr. Collier, Dr. Gray, Assistant Chief Anderson, Fire Chief Meers, H. B. Maxon, Detective Sergeant Munson. Four charges were laid, viz., that of attempting to murder, of shooting with intent to murder, of theft, and of robbery. These were tried together. Mr. Payne, for the defence, endeavored to break down the alleged certainty of the confessions, alleging that they were due to the fear of his life in the prison cell and the influence exerted on him. The bullet taken from Chief Bell's clothes had not been produced to see if it corresponded with the revolver produced; there was practically no evidence of the identification of Kelly with the Thursday night's events, and the police, realizing this, had used all kinds of pressure on him in their power. Mr. Attkens had told of Kelly's confession that evening in church.

The Judge pointed out that the legal definition of attempt to commit murder fell in the code under two clauses. The first covered the actual idea of murder—a premeditated and deliberate attempt to kill, and the second, which would apply in this case if they found the accused guilty on the facts, was when if the accused intended to do injury to another, when he knew that such injury was likely to cause death, and was reckless as to whether he caused death or not, then he was guilty of attempt to murder. As to the confessions having been admitted, that was the province of the judge, and the jury had to accept them as evidence. If the accused believed the judge should not have admitted it, he had his recourse to the Supreme Court of the Province, who could overrule the trial judge and order a new trial. If the majority of the judges believed the confession should not have been admitted. The Judge was disposed to comment on that point. Mr. Attkens had played in obtaining the confession from Kelly in his capacity as his spiritual comforter, but he pointed out that Mr. Attkens might have come over on the understanding that the prisoner wished to see him. It did not appear in the evidence at whose instance he was called in. The jury went out for an hour, and returned with a verdict of guilty with a recommendation to mercy. The Judge did not see how any other verdict than guilty was possible on the evidence.

In reply to the judge Kelly said he did not know where he was born, in Ireland somewhere, or whether he had a father or mother living. He had lived near Prince Albert, Sask., and in the States, and in Alberta, working when he could get work but not doing much of anything. On Wednesday morning His Lordship gave judgment sentencing Kelly to two years on the robbery charges and seven years on the attempt to murder, the sentences to run consecutively. He commented on the penalty of hanging to which the "reasoner" would have been liable had Chief Bell died, and trusted he would take warning.

THE BUILDING BURNED.
During the night the building belonging to the Lacombe Produce Company had been burned and the witness had seen it burn from his home. He then gave a list of the contents of the building and contents, a total of which amounted to \$14,300. The witness also stated that there were three other policies, amounting to \$1,750, put on by the loan company, which he and Mr. Wilson understood were in force at the time, but found out afterwards they had been allowed to expire about two weeks previously.

THE LEAKY CAN.
She also stated that she had lost the key to the door, so they took the lantern and made a search, during which he and Mrs. Girvin had some upstairs, and while there he had noticed a leaky can had been sitting on the floor and a considerable quantity of the liquid had run down a crack for a distance of about 18 feet. He made no attempt to find out what his liquid was. After an unsuccessful search Mrs. Girvin had left the building, promising to return the next morning. She had returned the next morning and while at the store had telephoned Mr. Wilson at Calgary. Later she had left, stating she was going north on the noon train, and the witness did not see her again until the following morning, when she took the train to Calgary.

THE ARSON CASE.
The case of Rex vs. Wilson Thursday afternoon. In this case Messrs. Nolan, Biggar and Russell are acting for the crown, and T. M. Tweedie for the defence. Wilson is accused of conspiring with his mother-in-law, Mrs. Girvin, to burn the building owned by the Lacombe Produce company, in Lacombe, on the night of March 2nd. Mrs. Girvin found guilty at the last sitting in Red Deer and is now serving a sentence of two years in the Edmonton penitentiary.

The whole afternoon was taken up with the examination of Mr. McIntosh, the manager of the company, by Mr. Nolan. On the night of March 2nd he had returned to the building, between 10 and 11 o'clock at night, to fix the fire, and found the door fastened from the inside, but after some trouble had been able to get the door opened and entered the building. He was accompanied by his daughter, and a young lady visiting them, a Miss Hunter.

Admiral Schley's Own Story

A man died the other day, and with his death passed America's most popular naval hero—America's championed by the people, though officially denied the fruits of his long and brilliant service. This man was Admiral Schley, hero of Santiago, one of the great sea-fighters of his forty-five years in the navy. He was not anxious to do this, for there was at least an old story that an autobiography must re-open. But we urged upon him the fact that nearly four million readers would see each instalment of his story, and that most of these readers believed, with Admiral Dewey, that the men who stood on the deck of the Brooklyn that July Sunday in '98 were entitled to the story of that great victory. So he consented to do it. Not in the cut and dried way but unlocking his secret soul as he had never done before. The first instalment of the autobiography, the life story of a man worth while in the nation's history appears in the Christmas number. Do these names mean anything to you? Do you understand their towering significance in the field of literature and art? Have you ever in all your life seen so many names of such eminence grouped together as contributors to one magazine? Such a group would make it a publication beyond price and that is exactly what we are calling your attention at this moment. A magazine whose staff of contributors for 1912 contains all these names. The product of either of the above writers is easily worth the subscription price of \$1.50.

Cosmopolitan has endeavored in the past to give its readers four fold in return for the subscription price. This policy has increased its circulation until it has far outstripped every other American magazine making it necessary to publish 800,000 copies of the Christmas number. It is our earnest desire to extend immediately the circulation past the million mark, with this end in view we will, until December 10th, accept subscriptions to Canada at the rate of \$1.50.

THE ADVOCATE AND THE CONSERVATIVE POLICY.

The Advocate didn't like Mr. Michener's speech last week. In fact, the editor really thought that his remarks were presented from a purely partisan standpoint, "which is regarded by all sensible people as political claptrap not only without effect on intelligent men but utterly unwelcome to the standing of Mr. Michener and Mr. Tweedie in this province." Which all goes to show that the Advocate is taking its policies rather seriously these days.

It, however, believes in the constitutional measures adopted by Mr. Sifton in gobbling up the seven million of A. & G. W. bonds, and also in the government spending the amount to pay the debts of the province.

It further defends and stands by the Sifton government in putting all the money they can lay hands on into the great pile of buildings at Edmonton to the detriment of farmers who are crying out for better roads.

And then the crocodile tears at the injustice to the people of Alberta over our lands is perhaps the really funny thing about the whole business.

For years the Advocate and other servile satellites of the Liberal party stated on every occasion possible that we were not entitled to our lands; that we could not administer them if we had them handed over to us, and a hundred and one reasons why we would never receive them. Now when all their blatant talk pans out, it is found to have been just so much political claptrap, mentioned aforetime in this article, and they are not and all for lands and natural resources of the Province, as though they had favored the idea all their lives.

The tail end of the editorial in the Advocate says Mr. Michener was in accord with the Rutherford government on its road policy, and as that policy has not changed to any extent it was very late to find fault now.

Of course, we all know such a statement is utterly absurd. Mr. Michener always wanted better roads and has never failed to point out that this is one of the crying needs of the province.

WHERE THE GOVERNMENT STANDS.

The navy proposals of the late government involved an expenditure of nearly \$55,000,000 in the next ten years. As a fighting force it would be absolutely useless when completed. Further than that, it established a principle of a disunited navy, and I think it can be demonstrated to the satisfaction of the right hon. gentleman (Sir Wilfrid Laurier) himself, and will be demonstrated before the end of this session, that before the time such a navy would be completed it would be absolutely obsolete. We propose to stop such a system of wasteful expenditure. The question of permanent co-operation between the Dominion and the rest of the Empire ought to be threshed out and debated before the people, and they should be given an opportunity of pronouncing upon it. We shall take pains to ascertain in the meantime what are the conditions that confront the Empire—Premier Borden, in Dominion Parliament.

COURT MARTIAL ON THE NIOBE

A court martial, composed of British naval officers, was held a few days ago to enquire into the responsibility of officers of the Niobe at the time that vessel went ashore. The result of the first day's hearing was that Lieut. Lord Allison Graham, who was officer on watch at fifteen or twenty minutes of the time of the grounding, was reprimanded. The evidence showed that while Graham was aware of the existence of Cape Sable lights, and the time they should have been discernible from the ship, he allowed time to pass when the lights should have been seen without reporting to the navigating officer. Although he was off duty for fifteen or twenty minutes before the grounding occurred, he was held guilty of negligence.

At a subsequent hearing, Lieut. Chas. White, the navigating officer, was found guilty of suffering, through negligence, the Niobe to strand off Cape Sable. He was severely reprimanded and dismissed from the ship. It had been shown that Lieut. White had been overworked previously to the stranding, and the finding of the court was a surprise to those following the case.

A BUSINESS CABINET.

A business cabinet and a business administration was what was promised by the Conservatives. That Mr. Borden has selected a business cabinet is very evident; when one glances over it. The first view of the ministers together was had in the house this week and they looked very like a collection of solid business men. They are starting off to live up to the reputations which have been given them. Official Ottawa, accustomed to starting work at anywhere from nine to ten in the morning as the humor seized it and quitting any time around four has been horribly shocked at the idea of ministers who insist on being at their desks at eight, work until six, and often return at night to their offices. The new ministers, like the new premier, do not promise to be particularly spectacular or showy, but they are starting off to give the country what is more important, efficient business administration.

APPOINTED TO SENATE.

Ottawa, Nov. 15.—At yesterday's meeting of the cabinet George Taylor, ex-M.P. for Leeds, Ont., and Rufus H. Pope, ex-M.P. for Compton, Que., were appointed to the senate.

George Taylor is a member of the Conservative old guard and for many years sat for Leeds, He was, until a year or two ago, chief Conservative whip, and resigned his seat a few weeks ago to make way for Hon. W. T. White, the new minister of finance.

Rufus H. Pope is well known in Calgary, having ranged near that city for several years. He also has a residence in Calgary. Mr. Pope took a prominent part in the recent election and with Hon. L. P. Pelletier, now postmaster-general, organized the growing tendency to protest against the interference in the Canadian elections of William Randolph Hearst, the American yellow journalist, which was held at Montreal in September.

Sir Wilfrid Laurier has descended from the noble heights of a leading statesman of the Empire to that of a carping critic, and the role, strange enough, seems to fit him. In his speech last week in his reply to the speech from the throne he thrust responsibility upon the government for trusts he claimed existed in the Dominion. If there is anyone responsible for trusts it is Sir Wilfrid himself, as there has absolutely been no time to form trusts since the election of Mr. Borden and his cabinet on September 21st last.

The majority obtained by the Conservatives in the recent federal election is about double the popular majority given the Laurier government in 1908. The new government is in power with an unmistakable endorsement of its policies.

The latest effort to release young Harry Thaw from the criminal asylum at Matteawan is reported to have cost the Thaw family \$150,000, and Thaw is still in confinement. It is estimated that since the tragedy in New York the Thaws have spent more than \$500,000 in legal efforts to set this young profligate free. The failure seems to be sufficient answer to the oft-repeated assertion that American justice is easily thwarted if one has enough money.

FEDERAL GOVERNMENT WILL BE ASKED TO STRIKE LOWER FREIGHT RATES FOR WEST.

Winnipeg, Man., Nov. 15.—Yesterday afternoon the Winnipeg Board of Trade unanimously declared that the rates charged by the railroad companies on freight west of the Great Lakes were manifestly unfair and away out of all proportion to the eastern rates. To remedy matters the board decided to appeal to the Dominion government to have an investigation made and have the government strike the rates that should be charged.

A MAGNIFICENT HOTEL.

Work on the Chateau Laurier, Winnipeg, the new \$2,000,000 hotel constructed by the Grand Trunk System, is progressing favorably. Nearly all the plastering of the hotel is now completed and there remains to be done only the lobby, bar and grill room ceiling. Most of the marble floors for the dining room, corridors are laid, and after the plaster work of the lobby is completed work will be started on the marble work of that floor. Heat and light have been in the building for the last two months, and when the plaster is sufficiently dried in the various public rooms, the decorators will be able to commence the interior decorations. Some of the wood work of the big rooms is in the hotel and the erection of this is going on. The general appearance of the various rooms is beyond expectation and when completed will be of the richest effect, artistic in design, and wonderfully beautiful.

England Approves Borden's Naval Plan

Unionist Press Declares Ships are Needed by Imperial Navy More Than Men.

London, Nov. 24.—The naval correspondent of the Daily Telegraph says: "Premier Borden's decision in regard to the naval policy of the Dominion will be received here with satisfaction. The old scheme was economically and strategically unsound from the first. It seemed to be that Laurier accepted the necessity for some caution with evident reluctance. The imperial navy needs ships not men. The overseas dominions have no natural surplus for naval service, whereas we have an over abundance."

The Morning Post says Borden's announcement is entirely consistent with his attitude while in opposition. The admiralty is asking for volunteers from the United Kingdom for the Australian navy, 1,680 officers and men still being required out of the total of 2,500, which is the full complement of the fleet unit Australia is assembling. The unit, however, will not be completed until next year.

The Times says: "There is no reason either for surprise or pessimism in Premier Borden's attitude on the navy question, nor need the proposal to submit a scheme to the electors be attributed solely to French-Canadian influence. The willing consent of all Canada to her effective co-operation with the rest of the empire in defense is worth securing and worth waiting for."

Can. Northern Buys Southwest Towns

Quarter Section on New Right-of-Way acquired 25 Miles from Strathcona.

If ordinary significance can be attached to the transaction, the purchase of a quarter section of land about twenty-five miles south-west of Strathcona by the Canadian Northern recently leads to the assumption that the land will be utilized as a townsite on the shortly to be constructed car line of the system between Strathcona and Red Deer to the west of the C. & E. An option was taken on the quarter in question several months ago, but the deal for the actual purchase was not consummated until recently.

This probable townsite of the C.N.R. is located on the base line between townships 48 and 49 in range

26, thus making it a distance of about ten miles west of the C. & E. The district surrounding is old and thickly settled and has all the requirements from which a thriving trade centre can be derived. The townsite is situated on the banks of a small stream and will no doubt be the home of a growing village shortly after the completion of the new road. It is said that the C. N. R. have acquired the lands for a great portion of their right of way south-west and it is likely grading will be commenced in that direction immediately after connection is made with Camrose to the southwest.

DELEURNE

Mr. Allan McLane passed through Delburne Thursday on his way back from Red Deer, where he had been for the few days preceding.

On Friday, Nov. 7th, a baby girl arrived at the home of Mr. and Mrs. Alfred Peterson. Congratulations. Mrs. Huelschwerlen, of Saskatchewan, is visiting her son, Peter Huelschwerlen, at present.

Mrs. Martin Culham and daughter Miss Ella visited Red Deer friends this week. Mr. Carriek, the proprietor of Sandy Cove Hotel, Pine Lake, and a party of friends rode over on horseback from Pine Lake last Wednesday and spent the day in our town.

The contract of digging the new well in Kent and McLane's livery barn has been given out to Peter Huelschwerlen, who is at present working on the job.

Dan Blair had the misfortune to lose a horse recently. Mr. Stewart and a number of government surveyors are in Delburne this week surveying the new road allowance.

The telephone construction officials sent word this week that the authorities are going to make proper connections and arrangements to have lines inserted for immediate service of Delburne citizens.

THE COUNCIL MEETING

The regular meeting of the Town Council was held on Thursday evening last, with His Worship Mayor R. B. Welliver in the chair, and Councillors Gaetz, Galbraith, Malcolm and Carscadden in their places.

COMMUNICATIONS.

From Scout Master Gibson, thanking the Council for kindness in making grant to Boy Scouts the past year. Filed.

A. McCallins enquired regarding licenses to travelling salesmen. Filed.

Rev. Father Voisin notified the Council that the retiring members of the Separate School Board were Rev. H. Voisin, J. B. Durand and G. Dumay, and Secretary A. Munro of the Public School Board notified the Council that F. S. Simpson, A. Munro and J. A. Carscadden were the retiring trustees of said Board.

From Prime White Oil Co., Cincinnati, Ohio, enquiring if there was an automobile association in Red Deer, as they desired to introduce an idea with regard to using said oil on our roads with a view of improving them.

The mayor replied to the letter with a view to getting all possible information on the question.

Councillor Gaetz said he had little hope of improving our roads with oil, as he had noticed in England such roads and claimed our roads were not good enough for such experiments.

Councillor Carscadden said he had noticed oiled roads in California and he expressed pretty much the same opinion.

The Council was notified of the meeting of the Inland Empire Waterworks Association at Spokane, filed. The Western General Electric Co. informed the Council that they had asked the A.C.R. to inform the company exactly where the stakes of the A.C.R. roadway were placed. As soon as they could get this information they would change the guy wire in question.

COMMISSIONERS' REPORT.

The Commissioners brought in their report as follows:

We have been negotiating for land for a nuisance ground and hope to be able to report fully on available sites shortly.

We received a letter from Tweedie & McGillivray claiming for shortage in weight on some cattle weighed at the stockyard scales. We handed this to the Gauge & Payne for attention. Their report is submitted herewith.

Mr. Iverson, Park Supt., Calgary, brought up the plans he had prepared for improvements to the park near the C.P.R. station and the grounds around the station. We submit his plans herewith and recommend that they be left to the incoming Council for consideration. Mr. Iverson is also preparing plans for the improvement of the Town Square.

We notified the Western General Electric Co. in writing that the street light service they had been furnishing was unsatisfactory and asking for a promise that it would be improved.

Chief Meeres requisitioned for a sleigh to be used instead of the wagon when there is sleighing. We authorized him to purchase this.

We received from W. E. Chadsey easement of right of way for water mains across his property on the side hill east of town. The main has been laid some distance over the top of the hill and the work is being rushed as rapidly as possible while the weather is good.

We received from J. J. Gaetz transfer of land for site for stand 'pipe'. This has been handed to the solicitors to be registered in the name of the Town.

Though the outer basin at the intake is in a satisfactory condition at present, it will be necessary to have it cleaned out this winter and generally overhauled. We purpose doing this after construction work has been shut down for the winter.

We submit herewith blue print, received from the Dept. of Railways showing the proposed change of route of the C.N.R. Strathcona, to Calgary branch. As it does not affect Red Deer we did not take any action in the matter of the hearing of the application.

Jesse Halshead has been let of town work for the winter.

We submit for your consideration a by-law providing for the holding of an election to fill the vacancy on the Council caused by the resignation of J. H. Menzies.

We submit herewith copy of agreement between the C. N. R. and the Town of Red Deer for your consideration.

On the evening of the 28th inst. a girl about 8 years old was sent into Red Deer from beyond Leslieville, suffering from some blood disease. She was sent to the hospital for treatment and the case brought to the attention of R. B. Chadwick, Supt. of Neglected and Dependent Children, as it appears to be one for his department to look after.

On the 20th inst., in the presence of W. L. Gibson, manager of the Bank of Commerce, the tenders for the debentures were opened and were as follows: Wood Gundy & Co., \$61,140; Bren's, Noron & Co., \$60,016; British America Securities, \$60,200; Ontario Securities Co., \$59,117; National Finance Co., \$60,745; C. H. Burgess & Co., \$60,286; Mackenzie & Co., \$59,012.

Though the price was lower than we expected it does not appear that there is any immediate prospect of the market improving. We called together as many of the Council as we could get and decided to accept the highest offer, that of Wood, Gundy & Co. The papers have been sent away to them and we hope to have the deal completed without delay.

As Councillor Menzies has resigned from his seat on the Council, we recommend that you appoint another Councillor to act in his place on the committee to negotiate with the Western General Electric Co.

We submit herewith copy of order of the Railway Commission approving the building of a spur track into the property north of the Alberta Pacific Elevator.

We submit herewith accounts for your authorization to pay. All of which is respectfully submitted.

Some discussion took place on clause two regarding weighing cattle on weigh scales. It was decided to wait further developments on the question, as it had been referred to the solicitors.

The report as amended was adopted.

Councillor Carscadden was appointed to the special committee re. the Western General to take the place of Councillor Menzies resigned.

Considerable discussion took place on the agreement of the right of way of the Canadian Northern railway through the town.

Councillor Carscadden moved, seconded by Councillor Galbraith, that the Commissioners arrange to have a survey made at once with a view to determining the proper width and location of a street crossing the C.N.R. right of way, to be the first street south of fifth street east, as referred to in the proposed agreement between the Town and the C.N.R. Carried.

Councillor Galbraith moved, seconded by Councillor Gaetz, that the matter of the C.N.R. agreement be referred to the Town Solicitors with instructions to meet the Council concerning the same at its next regular meeting. Carried.

ACCOUNTS.

The following accounts were presented and ordered to be paid:

Some discussion took place regarding snow on the sidewalks, and the Commissioners were instructed to have the sidewalks cleaned if possible.

The Council adjourned at 12 o'clock.

Cosmopolitan and Dickens

Charles Dickens is still a "best seller." Publishers don't argue pro and con over his books—they just order a new carload of paper, oil the presses, and let them speed on. And it has been over forty years since, one morning when the yard was filled with scarlet geraniums and the air, the great author followed little Nell. Now the centenary of his birth (February 7th, 1812) approaches and everybody is thinking of Dickens. We have secured several articles which will tell many things about him that have hitherto been unknown. In the January Cosmopolitan his son, Alfred Pennyson Dickens, will tell you some of his own personal recollections of the great novelist. Later, probably in February, Mary Angela Dickens, his granddaughter, will give an intimate view of Dickens as she remembers him. In fact, in these and other articles on Dickens which will follow—fully illustrated of course—we shall aim to give you a more vivid picture than has yet been published of the human—the home-side of the great master, written by those who knew him best. Read the articles—they will surely arouse a new interest in the "Best Beloved" author in your library. Subscriptions to Cosmopolitan will be accepted, until December 10th, at the special low rate to Canada of \$1.50. Cosmopolitan Agency, Box 851, Winnipeg.

HILLHURST SOCCER TEAM WILL BE BACK SOON.

The Calgary Hillhurst team, now in England, will be back by Christmas. Many of their scheduled games have been given up, owing principally to the fact that it was impossible to make them a financial success, as they could only get midweek matches. They made a very good showing considering circumstances. They played eight games and won two, the games being as follows: Liverpool 5-1, Nottingham 4-1, Crews 5-1, Coventry 1-0, Ilkeston 0-1 (win), Bradford 2-3 (win), Stockport 8-1, Bradford 2-2.

Annual Meeting of Hockey League.

League to Be Strictly Amateur This Year. Rev. Pearson, of Red Deer, is President.

The Hockey Association held its annual meeting in Calgary on Friday. Delegates were present from nearly all important Alberta towns. After some discussion on various matters, the election of officers was brought on and resulted as follows: President, Rev. Pearson; 1st Vice, R. H. Dobson; 2nd Vice, Deacon White; 3rd Vice, Steve Clancy; Sec., P. H. McPherson. Executive—A. G. Henderson, J. Stoddard, L. J. Chown, F. Gravelle.

The province was divided into four sections, viz: Edmonton, Central, Calgary and Southern. There will be four teams in Edmonton; probably more in Central, which includes Wetaskiwin, Lacombe, Stettler, Red Deer, Olds, etc.; three or four in Calgary, and probably quite a number in the Southern. Amateur rules will be strict this year, and a player must have resided in the town he plays for from Nov. 1st of this year. The scheduled league games must be over by Feb. 1st, which will give more time and better ice for the finals. With such a sport-lover as Rev. Pearson in charge, and with such a good start, the league ought to be a great success this year.

ALLEGED CATTLE STEALING.

The Caster Advance says: A case of this description was up before Justices of the Peace E. H. Matthias and A. Addison, Friday and Saturday of last week, when F. and Bruce Johnson were arraigned, charged with stealing 'one red heifer calf' the property of Gottlieb Ulmer. From the evidence it appeared that the two Johnson boys rounded up a calf this fall with their bunch. Gottlieb Ulmer laid an information against the Johnson boys and had a search warrant sworn out. He went with Constable Coventry and brand inspector T. Coppock to the corral of the defendants where he identified the calf. The animal was clipped and examined by Mr. Coppock and found to have the registered brand of Ulmer on it. Defendants' plea was that they had not as yet examined the bunch as rounded up. The prisoners were sent up to stand their trial. They were let out on bail.

F. F. GIBBS PROMOTED.

Fort William, Nov. 24.—Frank E. Gibbs, grain inspector for Port William, has been promoted to the high office of chief grain inspector at Winnipeg. Mr. Gibbs came to Port William twenty-six years ago and was the first grain inspector at the two ports. His promotion is well deserved and his departure greatly regretted.

Mr. Michener Explains His Position

SPLENDID MEETING AT THE LYRIC

MR. TWEEDIE AND MR. HOADLEY ALSO SPEAK

The Conservative rally on Tuesday evening drew a large and representative audience, among whom were many supporters of the Liberal party. The speakers all received a fair and appreciative hearing, many of the remarks made provoking cheers of approval. The speakers of the evening were T. M. Tweedie, member elect for Calgary; George Hoadley, M.P.P. for Okotoks, and the local member and leader of the party, E. Michener, M.P.P. It was a very interesting meeting, instructive and of critical value from the standpoint of the voter. There can be nothing more wholesome than an occasional review of provincial politics and a criticism, frank and just, of the blunders of the administration. In the present instance there would appear to be ample cause for such a review. The general mess into which the government of this province has fallen, has not continued so long that the past begins to be forgotten and desire a change. All signs point to the fact that a change is surely on the way.

Mr. Tweedie who spoke first on Tuesday evening, received a very cordial welcome, and at once plunged into an arraignment of the present administration. He expressed himself as glad to appear as a representative of the Conservative party and in support of the leadership of Mr. Michener. Present political issues, said the speaker, are somewhat confused. We have in the house at Edmonton a strange anomaly, in that we have three parties. There is the party of the government led by Premier Sifton, another faction of the same party led by Mr. Cross, and the Conservative party led by Mr. Michener. The control of the province has now been in the hands of the Liberal party since 1905, when the province was first formed, and the speaker affirmed that there had never been an instance in the history of any province of worse maladministration than we have now under the present party in power. The speaker stated that the Liberal party in the old Territorial Legislature had been first in the favor of provincial ownership of natural resources, but one by one they had abdicated at the bidding of the Dominion Government, each man agreeing at a price. One man prominent in the councils of the territories was today the L. Governor. Another had been made a premier in Alberta. Another had become Premier in Sask. Still another was speaker of the House at Edmonton, and one had been raised to the bench as Chief Justice. On the other hand the Conservative party had always consistently stood for the policy of provincial control. On that plank the party stand today and on that plank they anticipated victory at the polls.

The speaker declared that there was no evidence whatever that the pre-election promise of the Premier with regard to the ex-Liberal government granting the resources to the province had any foundation in fact. Nothing had been found in file in Ottawa that would give credence to it. There can be no doubt that the Premier of the Conservative government in his tour through the west had pledged that this would be his policy if he were returned to power at any time, and from the personal character of the premier there was no question that this promise would be faithfully kept. It was very doubtful however that this important trust would be placed in the hands of men whose only record was one of fatuous and persistent bungling, and who were on record through a number of years as opposed to this very policy. The speaker pointed out that every member of the present Liberal government had been elected on a subsidy policy whereby the province took \$375,000 annually in lieu of the lands and resources of the province. There could only be one reason for so sudden a conversion on the part of men like the Premier and the Minister of Agriculture, both of whom had deflected elegantly the acceptance of a subsidy. The Premier knew full well that without the natural resources the past maladministration of the government of Rutherford and of himself could end only in provincial insolvency.

Mr. Tweedie stated that out of a temporary loan of \$7,400,000 made by the province to take the place of the A. & G. W. money now in litigation, the present government had appropriated only \$200,000 for roads and the same amount for bridges. In the province of Alberta there are 41 constituencies and the amount apportioned for the roads of the province averaged \$5,000 for each electoral district, a sum which everyone could see was entirely and ridiculously inadequate.

Mr. George Hoadley, M.P.P. for Okotoks, next addressed the meeting. The member for Okotoks is somewhat of a humorist and his address, while instructive and serious, was nevertheless punctuated here and there with allusions and references which provoked the audience to laughter. Mr. Hoadley's indictment of the present government followed along the lines of a criticism of the telephone administration and the demonstration. He referred to the fact that there had been needless extravagance in the method of installation which had come under his own

observation in the riding which he represented. The man had in one instance carried eight miles from the scene of their work, their time counting from the hour when they left in the morning to the time at which they reached camp again. Reference was also made by the speaker to the fact that it was an unmitigated evil that the telephone administration was made a part of the machinery of the party in power for political ends. He instanced the recent Gleichen election where the demands of the people for a rural system had been entirely disregarded until the eve of the election. Not only had large gangs of men been thrown in the constituency and town of Gleichen, but there had been present also, and actively engaged in electioneering, a man who was a paid assistant superintendent of the telephone department. The speaker deprecated the system which had grown up under the care of the present government, of public servants acting under instructions from the Premier and engaging in active electioneering. This one is always a supreme evidence of the corruption of the party in power.

The Hon. Duncan Marshall came in for his usual just share of the speaker's critical attention. Totally disclaiming any desire or intention of offering an insult to the Minister of Agriculture, the speaker nevertheless stated with some warmth of emphasis that, in his official capacity, the gentleman referred to was a fraud. The speaker characterized the remarks of the member for Olds in connection with the introduction of his bill for the creation of demonstration farms, as an insult to the farmers of the province. The Minister of Agriculture had said on that occasion that nothing so grievous as the present government had done to the country, as to see the unsightly aggregation of buildings of all shapes and sizes which were to be seen on so many of the farms of the province. This statement only revealed the fact that the Minister of Agriculture lacked both the understanding and the sympathy necessary for his position. The settlers of his country, the real pioneers, were not men who were endowed with wealth. Many of them had very little money with which to make a start and the small buildings, which so offended the aesthetic taste of the Hon. Mr. Marshall, were really a splendid evidence of the heroism of the men who were making this country great. Anybody could start a farm with \$25,000 of Government money, and every farmer could have a large barn if he had two or three thousand dollars to put into it. Moreover, said the speaker, it was a fact which had been established in his own experience as a stock raiser, that cattle did better in small barns and in separate buildings than in large numbers in one large barn which the Minister of Agriculture regarded as one of the main lessons the demonstration farm was intended to teach.

Mr. Hoadley read from the Medicine Hat News of July the 3rd a statement in connection with the importation of 16 thoroughbred Jerseys, which affirmed that the main idea was to retail cream of high quality in first class condition to the people of Medicine Hat.

The member for Okotoks expressed himself as in hearty accord with the leader of the Opposition and spoke of the confidence which his integrity inspired. When the Conservative party should come into power the province could rest in the assurance that there would be an honest and capable administration, under the leadership of Mr. Michener.

MR. MICHER'S ADDRESS. The member for Red Deer was the last speaker and received a hearty reception by the audience. He explained the object of the meeting, saying that he believed in the principle of a member holding one meeting at least between sessions, so that he might give an account of his stewardship and hear anything that any of the electors wished to say in connection therewith. There had been an opportunity to do this until the present meeting. Mr. Michener expressed his belief that the people were the government, and that no administration should ever forget that fact. Any other government than that of the people, by the people, for the people, was not to be tolerated in this country. He stated that he had been elected as an independent Conservative with a free hand, but had found conditions so bad at the seat of government that he could not see his way to support the party in power. For this reason and because he felt it his duty to do so, he had done this against his inclination and at a time when there was no sign that his party would ever come to power. Now that better days had dawned for the opposition, he had sought to relinquish the honor in favor of someone who could better fill the position. With this object in view he had called the executive of the party together and they had unanimously urged upon him again the honor and responsibility of leadership. "And now," said the speaker, to borrow a phrase from Sir Wilfrid Laurier—a phrase for which he now probably has no use—"Victory is in the air." "I have burned my bridges," said the leader of the Opposition, "and I cross the Rubicon."

When the time comes for a general election I know what the verdict of the people will be. It will give me great satisfaction then to know that I am in a position to receive for the people of the province and to do for them those things which they are entitled to and which they ought to have. Are Your Hands Chapped?

Zam-Buk Will Cure Them.

The particular danger of chapped hands and cold cracks (apart, altogether from the pain) is that the cold is likely to penetrate and set up inflammation, festering or blood-poison. Directly the skin is broken by a cut, graze or scratch, or chafed and cracked by the action of the cold winds and water, the one necessary precaution is to apply Zam-Buk freely.

The pure herbal juices from which Zam-Buk is prepared are so perfectly combined and refined that the immediate effect of these Zam-Buk dressings is soothing, antiseptic, and healing. Pain and inflammation are allayed, disease germs expelled from the wound or sore, and the latter is quickly healed.

Zam-Buk is not only a powerful healer and skin purifier; it is strongly antiseptic and germicidal, and so forms the ideal protection for the skin against disease germs.

It quickly heals cold cracks, chaps, chilblains, cold sores, etc.

Mrs. M. O. Mohr, Neuchatel, Alta. writes: "I must tell you how pleased I am with Zam-Buk. My husband had an old frostbite on his foot for many years, and had tried almost every known remedy without any effect, but the first application of Zam-Buk seemed to help him so much that he persevered and the sore is now cured. We would not be without Zam-Buk in the house."

Zam-Buk is also a sure cure for piles, eczema, ulcers, abscesses, scalp sores, blood-poison, bad eruptions, etc. Its purely herbal composition makes it the ideal balm for babies and young children. All druggists and stores sell Zam-Buk. 50c box or post free from Zam-Buk Co., Toronto, for price. Try also Zam-Buk Soap, 25c. tablet.

RED DEER IN ENGLAND

What a Former Visitor Says of Us in the Old Land

C. W. Starnes, one of the British Journalists visiting Red Deer a few months ago, had the following descriptive article in relation to Red Deer in the "Northern Echo," a journal published in Darlington, County of Durham, one of the foremost railway centres of the north of England:

"One is apt to forget that Canada has a prehistoric as well as a modern side. The oldest stratum of the world's crust is known as the Laurentian, and a very tough Stratum it is. It outcrops all along the north shore of Lake Superior, and cost the builders of the Canadian Pacific Railway millions of pounds to blast a track for the steel rails. The virgin soil of the Western Prairies is the accumulation of many thousands of years. Its age is being betrayed on the banks of the Red Deer river, where an expedition from the American Museum of Natural History in New York is unearthing the remains of prehistoric monsters such as the dinosaurs and skeletons of reptiles of sixty feet long."

BUTTER AND CHEESE.

The Red Deer River rises in the Rockies and traces a rather devious course through Central Alberta until it joins the southern branch of the Saskatchewan river. It has carved out a valley singularly rich in prairie grasses, and when the Red Deer from which it drew its name had been exterminated by the hunter, it provided an ideal grazing ground for the horses and cattle of the rancher and the settler. A large proportion of the American farmers who are migrating into Canada from Wisconsin, Minnesota, and the Dakotas are making for the Red Deer Valley and finding it good. Round the pretty town of Red Deer itself, a settlement of

British and Ontario farmers contributes substantially to the wealth of the Province—no less than fifty per cent. of the cheese produced in Alberta coming from Red Deer. This district has eleven cheese and butter factories and six creameries which find an unlimited demand for their output in British Columbia and more particularly in the mining camps of the Yukon. Red Deer believes in co-operation, and ships its produce in carloads.

CANADA'S CHAMPION COW.

The most successful dairy farmer is an Englishman, or rather an Irishman, C. C. Rosalind, who is an architect by profession but now an enthusiastic breeder of Jersey cattle. His Rosalind of Old Basing is the champion dairy cow of Canada, yielding over 1,474 lbs. of butter in an official test of twenty-four months. Rosalind's mother is still very much alive, and Rosalind has a pretty daughter. Between them, these three beauties have during the last 12 months provided Canada with over a ton of butter. This is claimed to be a world's record, and at any rate says much for Red Deer.

RED DEER.

The town of Red Deer lies just half way between Calgary and Edmonton, and has hitherto been to some extent eclipsed by the phenomenal progress of these two cities. But circumstances which point to a considerable future for Red Deer, as it is the natural collecting and distributing centre for the rich oil fields of the Brazeau river district further north. These oilfields are in proximity to the Yellowhead Pass, and two railways are running out from Red Deer to Brazeau with the very probable intention of cutting through the Yellowhead to the Pacific Coast.

THE YELLOWHEAD PASS.

One of the railways is the Canadian Northern, which at present has to draw its supplies of hard coal from the Crow's Nest Pass. The other is nominally called the Alberta Central, but is popularly identified with the Canadian Pacific Railway. There is little doubt that the C.P.R. will use the Yellowhead as a freight route as soon as the Alberta is sufficiently settled to justify the building of a second line across the Rockies, and the advantage of this route through Red Deer and Brazeau is that it passes through profitable territory all the way, whereas the route via Edmonton, originally selected, but abandoned by the C.P.R. as a route to the Pacific Coast, passes through miles of muck and brush country of less definite value.

MIXED FARMING.

The farmers of Red Deer are wise enough not to put the whole of their money into wheat. They are "mixed farmers," the word is used, they keep cattle as well as grow grain. The advantage of this is that if their crops are reared by an early frost, they can still use their grain as winter feed, whereas the man who has only wheat has nothing to fall back upon. The Saskatchewan farmer on the other hand is usually a wheat farmer, pure and simple, importing his eggs and his butter, and drinking tinned milk. If his crop is good he makes more money than the Red Deer farmer, but there is not the stability in his farming which makes for prosperity in bad years as well as good. During the winter he has little to do, whereas the mixed farmer has work for his hands all the year round. The moral is that the farm hand, anxious to obtain a yearly contract instead of being engaged merely for the season, is more likely to find what he wants in a mixed farmed district than in districts confined purely to wheat. 408 horses, 1,920 cattle, and 3,150 hogs were shipped from Red Deer station last year. "I don't know how to account for it," said one of the foremost breeders in the district, "but the climate conditions here seem peculiarly favorable for pure bred stock. Whereas in other countries cattle imported from the Old Country have difficulty in holding their own, and even deteriorate, necessitating frequent re-importations to maintain the standard, in Alberta the cattle improve with each generation."

The rink opened with a good crowd on Wednesday night; last and has been open every night since. The ice was a little rough at first but it is now coming into fine condition.

Little has been done as yet in hockey circles in town, but we are looking for something doing pretty soon.

Fred S. Darling and Richard S. Tobin, representing S. C. Lower & Co., are in town with a beautiful oil painting of the new town of Cepear, Calgary, where the car shops will be. This painting is on view in R. B. Welliver's window and should be seen by our citizens.

The Mayor has called the annual public meeting for Friday night, Dec. 1, at 8 o'clock, in the Oddfellows' Hall, when the annual financial report will be presented and town affairs will be discussed generally. All citizens should make a point of attending the meeting.

The Squire Sales System, of Calgary, are putting on a big sale for The Checker Board Store, opening Saturday next. Great bargains are offered, and A. Neill, the well-known sales manager for this firm says everything is worked over down. As the sale will only last seven days, buyers will have to hustle to take advantage of the good things offered.

Mr. and Mrs. W. H. Hadley and baby Marion will leave for Wolverhampton, England, on Saturday next. They will sail from Halifax by the White Star liner Megantic, and will probably be gone three or four months. It is seven years since they arrived in Red Deer. Mrs. Hadley has been rather poorly for some time, and it is confidently expected the trip will be of great benefit to her.

Ex-Mayor W. J. Botterill has been approached with a view to allowing his name to stand as a member of the Council, and it is hoped he can be persuaded to accept, as men of experience are needed this year. G. W. Smith has also been mentioned by a number of citizens, and the News reporter waited on Mr. Smith and asked him if he would stand. He expressed a willingness to take a seat on the Council Board if the citizens desired it. He would make a strong addition to the Council and would be elected without doubt should he consent to stand.

Since our last issue Councillor R. P. Afford has sent in his resignation, which has been accepted at a special meeting of the Council, and a new election is called for the same place and date as the mutual elections.

This makes five retiring members this year. Of this number Councillors Galbraith and Carswell are in the field for reelection. Councillor H. H. Gaetz has expressed his determination to withdraw from the Council, which is to be regretted, as he is, in our opinion, one of the best informed citizens on municipal matters in town.

Charles Edward Russell has made for the Cosmopolitan a most elevating investigation of lumber trust methods—he has followed the slippery trail of the lumber octopus literally from coast to coast—and he has the "goods." You will be surprised at his revelations—at the tremendous power of the trust, its brazen indifference to all but its own interests, its hold upon legislators, its high-way methods of national pocket-picking. It will be a great series of articles—vitally interesting to everyone who has ever bought any part of a tree. The first article will appear in January. Subscriptions to Cosmopolitan will be accepted until December 10th, at the special low rate of Canada of \$1.50. Cosmopolitan Agency, Box 551, Winnipeg.
